JIMMIE WILDE CALLED WINNER

But Decision Over Joe Lynch Is Not Popular With Sport Writers

BOUT WAS VERY CLOSELY CONTESTED

Wilde Got One of the Worst Gruellings He Ever Received

London, April 1 .- None of the sport ing reporters on London morning papers frankly endorses the decision by which Jimmie Wilde, the British fly weight for several months, and whose resignachampion, defeated Joe Lynch, an Ameri- tion became effective to-day, will leave can boxer, on points last night. While at once for Springfield, Mass. He took some are content to say that the bout was very closely contested, others do not bans when the latter left for overseas disguise their surprise, and mention sym-pathetically the astonishment with which he decision was received by a large part of the spectators.

of the spectators.

The Mail's expert says he scored the rounds carefully and at the finish privately decided that Lynch had won 11 and Wilde 4. He wants to know, he says, upon what the referee's verdict was based. The Daily Sketch says: "Many experts will quarrel with the decision for Wilde got a worse gruelling than he did on the only occasion he has been beaten in a real contest."

(This is a reference to the defeat ad-ministered to Wilde by Pal Moore of Memphis, Tenn., in the inter-allied boxing tournament, held in London on Dec

The Sportsman declares Wilde was the victor by a very narrow margin, and the Sporting Life suggests that the ruling was due to the fact that Lynch held a good deal and was warned in almost every round, but this newspaper admits "it was thought Lynch had just about got there."

ORANGE COUNTY FARM BUREAU

Notes for Week Ending March 29.

Have you had a farm account book! Are you keeping the account book secured earlier in the season of the farm bureau? April I is a good time to start such a book as the inventory at that time of the year is the easiest to handle. You also have some spare time some of these early spring days when the sap does not run and you cannot get out on the land. If you have no account book, send to the farm bureau at Cheisea and they will send you one. The cost is slight and its value to you can be measured in dollars. Some men have made such a record worth over \$100 to them. Here is the labor income of one man for four years: \$207, \$452, \$805. \$1,308. Has your labor income increased like this the last four years? Farm accounts and their study from the business standpoint is a big factor in this it himself.

Farmers who kept their account books last year and would like the farm bureau to assist them summarize the same, can have that assistance by sending their book to the farm bureau office or writing that you would like to have the county agent call as soon as he can for this pur-pose. A. C. Lewis, assistant farm man-agement demonstrator from the state extension service will spend the next two weeks, beginning April 7, in Orange coun ty, getting summaries of account books to make up an average for this past year. A large part of the time will be spent at Randolph and vicinity, where these records are being summarized for the fifth year. Plan to attend one of these series of meetings, which will be held in that section during this period as per local notice.

O. M. Camburn, state extension dairyman, spent three days of last week in Orange county, meeting with the executive committee of the farm bureau Tuesday, and planning out a program for the dairy project with the county agent and this committee. We plan to spend a good part of our time on dairy work this coming season, rather than on crop demon-stration work. The special subject will be better breeding for our dairy animals. We cannot build up our herds with scrub bulls. Unfortunately many are trying This sometimes means a registered animal as well as one with little breeding, because it takes more than regis try papers to make a good animal. If you are not satiszfied with your line of breeding, get in touch with the farm bureau, it may be able to help you.

A request recently came to this office for information regarding the present value of ashes. This man stated that he thought many village families did not realize their value and could save them more carefully if this was known. As potash is scarce, ashes are particularly valuable at this time on any crop where potash is needed. Unleached hardwood ashes contain one to two per cent phosphoric acid, four to six per cent potash and 30 to 35 per cent lime. If this same material was purchased in commercial fertilizer and lime, it would cost \$30 per ton. Counting 50 bushels per ton, this would mean 60 cents per bushel. How-ever, I do not believe that we can afford to pay so high a price for potash and lime this year. Ashes could be secured from Canada for \$18 per ton of the same analysis as given above. This would be 36 cents per bushel. As local ashes are rarely kept well, I should consider value from 20 to 35 cents per bushel, according to material used as wood and the care

taken of the ashes.
E. H. Loveland, County Agent.

Joseph Haugh of Hampton, N. Y., has brought suit in the United States district court against George'F. Rial of Poultney, liveryman, to recover \$10,000 damages The plaintiff alleges that he hired the de fendant to do some automobile work for him and that through careless driving the machine went over a bank and Haugh was injured. Papers in the case were served by Deputy United States Marshal Edward S. Whittaker.

Rev. Ernest S. Rand of Middlebury, who was awarded the Russian cross of St. George in Archangel, Russia, recently for his coolness and courage under heavy fire, was for several years secretary of the Y. M. C. A. at Middlebury. Two years ago he was in charge of the Y. M. C. A. at Fort Ethan Allen. He is a Congregational clergyman and during his ab-sence overseas his family remained in

RECONSTRUCTION

Of Lost Health-Tone and Exhausted Reserve Strength.

Consequent upon the war, the dread-ful epidemics, trying weather and changng seasons, is imperative.

Never before were the blood-building nerve-toning, appetite-making properties of Hood's Sarsaparilla so much needed

This medicine, 1st, creates an appetite, 2d, aids digestion, 3d, perfects assimilation of all the food you eat so that your blood and body receive the benefit of 100 per cent of this nourishment. This rapidly adds to your strength and gradually restores your reserve strength, naturally bringing about normal conditions and permanent good health. Hood's Sar-saparilla is America's greatest blood-purifying medicine, with a record of

greatest sales and greatest cures.

Hood's Pills are a fine family cathartic, gentle and effective, well adapted to help Hood's Sarsaparilla.—Adv.

Rev. A. C. Ferrin, who had been pastor of the First Congregational church work in the Y. M. C. A.

DO NOT BE TROUBLED BY BIG SHOE BILLS

Fifteen months of service from a pair of Neolin Soles is claimed by F. T. Evans of Seattle, Washington. "Then I had them half-soled and they are still good," says Mr. Evans.

Big shoe bills do not trouble the man

who gets wear like this from his shoes. If you are interested in cutting down your shoe expense, be sure that the shoes you buy have Neölin Soles. You can get them on new shoes in many styles for men, women, and children; and they are available every-

where for re-soling, too.

Neölin Soles are made by Science to give long wear, and to be comfortable and waterproof. They are manufactured by The Goodyear Tire & Rubber Co., Akron, Ohio, who also manufacture Wingfoot Heels—guaranteed to contract all other beels.
